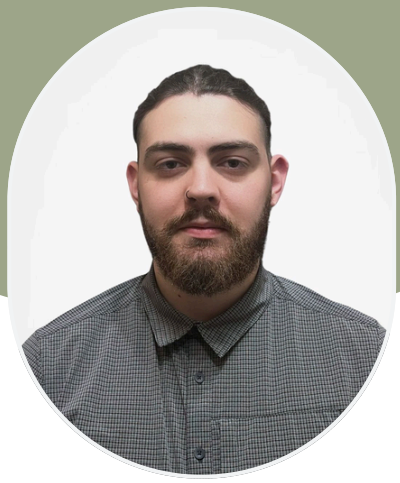
ALBERT
PALAZÓN VILLARINO

Service Desk & Security Analyst

albertpalazon.github.io



About me

IT professional with more than 6 years of experience in enterprise environments, supporting Level 1 and Level 2 operations and contributing to team training. Specialized in identity management and incident analysis in critical infrastructures.

Master's degree in Cybersecurity and certifications including CCSP (ISMS Forum) and eJPT (INE Security).

Currently focused on transitioning into Security Analyst and SOC roles, combining hands-on technical experience with vulnerability management and cloud security environments.
